Mileage: The standard IRS mileage rate will be assessed for all services performed when sampling location is more than 5 miles from the inspection office or the contract sampler location. There will be no mileage or travel time for probed cars that are sampled at least 15 at a time. This mileage and travel exemption will not apply to onsite labs.

Living expenses: There will be a \$150.00 per day living expense charged to recover motel and meal expenses on overnight stays.

Weekend on call time: On call charges are when an applicant wants inspection personnel to be available for the weekend work. The elevator must place us on call by noon Thursday. A weekend starting time must be established no later than 4:00 P.M. Friday. The elevator must contact agency personnel of any

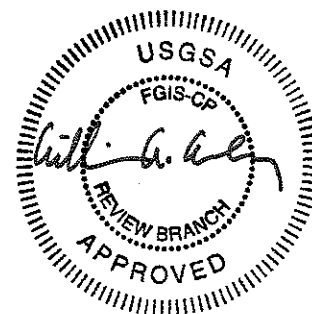

changes to the starting times. Cancellation or changes of starting times will result in a four hour per person, per day charge assessed at the applicable hourly rate. Agency personnel will not be required to be available until the established starting time. This will ensure our employees of some compensation for being on indefinite weekend call.
